I can't explain the love that I have for you in words. Just let me show it with every breath I take. I have reasons beyond doubt that you are the love of my life, the one God kept for me. The more reasons I gladly can face tomorrow with my head lifted high. If happiness were to be a person, it would be you because that is all you are to me. You will always remain close to my heart, no matter the distance between us. I love you, honey. Good evening, how are you doing this evening, hope that you're

I hope you have a good day too. Been to church, put a prayer in the prayer box. Please help us get your trip here! A simple prayer easy to understand! Around me at the table sit men who have been guests of the church for a long time. If it is only for the maen or earlier. I actually think earlier. They show that they do not believe in prayer. I had make a large omelette, for luch and dinner too! Not big reason shift food as long as it healthy and tasting good.

This wait is absolutely worth it to me because I know that gorgeous days are just around the corner. We'll be together soon. I'm eagerly waiting to be with you. I know there is nothing in the future that we can't conquer together through faith and delight for time because we have been able to maintain a healthy relationship while being separated by a great distance. Good evening honey, how are you doing, hope you're having an amazing evening over there, how was your day today? Hope that you're ok?

I don't have all of the words to express how much you mean to me. I can only say that you are the center of my life and everything else revolves around our love for each other. When you need someone to be there for you, I'll be right there by your side always. I just had to let you know... loving you is the best thing that happened to me. Good morning honey, I wish you a great day today. Hope you had your coffee when you wake up. I started working early, I never wanted to bother because I know

you're sleeping

Leif Rehnvall

Sep 4, 9:32 AM

Okay, that's good. But never be afraid to bother me. I have a heavy sleep and if I wake up, I easily fall asleep again. I understand your early work time. But as you were very tired before we said good night I was a little worried about how you were feeling.

Good to hear that it was no problem, you know I really care, all the time wish you are feeling the best! You are taking care, and I wish you a very good day! I will go outside and start working. Have you in my mind all the time! Kisses in thousands to you. Feel

my innerly hug! Have a good day. We will take care!

Has talking with the doctor! He should listen with the nurse if I could get fusion and injection earlier than 20 September! He say my symptoms is something else than B12 and blood! I asked what is it! He didn't know!

,
Sep 5, 4:24 PM

,
I asked him to find out then! But he wants to claim that it was mostly my head that brought it all about. When I hear him say that, I get scared. Getting a feeling that it's crazy that you come to me. He wants to claim that I am imagining that I feel the way I do. It has nothing to do with MY body not really working like the average. Which one wants to consider in parts of the research on these problems. We've come this far so we can't back down now and then you have to see who I am and how I work. I know who I am. That today I don't have the mental strength to deal with worry, anger and despair as I'm used to, it's tragic. I do what I can to stay calm and in control. A lot can be avoided if you use your mental strength based on patience and willingness to live with calmness and control.

,
Sep 5, 4:25 PM

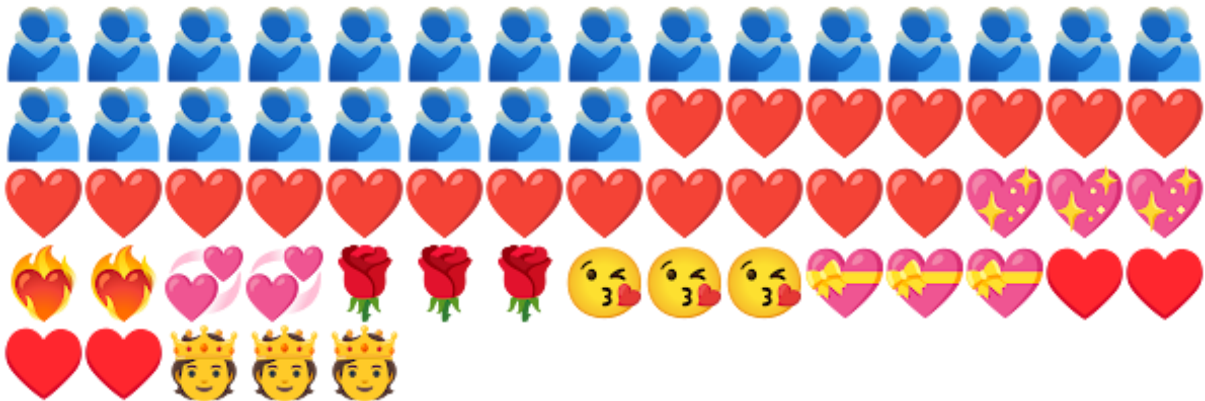

Leif Rehnvall

Sep 5, 7:28 PM

I think you have got a realistic picture of how I am and what kind of person I am! To be honest am I a hypochondriac or will I try to see my health in a realistic view and work for the best? I see it as very important that you are 100% honest. If you see things I can do better tell me. Then we have to see what we can do about it when you are here. to now, but I can see. Maybe do something about it on my own. My doctor didn't understand that B12 causes problems with mental and physical problems for the individual. For me is that my biggest problem. As I will be a good person, don't lose temp, get a decent attitude. I see it in a way practical. I feel I reacting to my ex women and being angry, shouldn't react as I think if I have a good status. Then I see WHY my reaction. We should still be good friends and I hope you can be too. And she can see my happynes as a good thing.

Sep 5, 10:07 PM

Leif Rehnvall

Sep 5, 10:07 PM

I find it so easy to talk about myself and how I feel. So started tonight. Because of the conversation with the doctor. But it is important that we talk more about how things work for you and how you feel, what you want and how we will make it work. I know you're struggling to sort this out. In a way I can't help. But I'm here and if you can tell me anything you want me to know, don't be afraid to do so. You know I want to be

part of the future together.

I can't stop thanking you for coming into my life and changing my world. Your love is all I need and it will never go away. I loved you just as much as I do now and I'm not going to love you any less than I do. You're the only one that makes me a happy person. I love you so much. Good morning honey, I wish you a nice and lovely day, may all your heart desires be granted and may you find peace in all you do. Be happy

Lyrics Can you love someone from a distance? Yes, it's many miles apart Between me and the one I love Several hours with my car If you only spend an hour Could come to my house And sweetly whisper those words: "You, I'll Never Leave You" When I think of that night When we met, you and me How you took my hand and looked at me With your look so I became weak Yes, then I feel a longing To hug you so tightly Think how easy it was before And now everything is so difficult Can you love someone from a distance? Yes, it's many miles apart Between me and the one I love Several hours with my car If you only spend an hour Could come to my house And sweetly whisper those words: "You, I'll Never Leave You" I hug my pillow tightly And thinking about you all the time Where are you tonight my love? Do you sometimes think about me? To have you by my side Can I just dream about Because when I wake up every morning Is my bed empty as usual Can you love someone from a distance? Yes, it's many miles apart Between me and the one I love Several hours with my car If you only spend an hour Could come to my house And sweetly whisper those words: "You, I'll Never Leave You" And sweetly whisper those words: "You, I'll Never Leave You"

I love to give you this text, bouth in English and Swedish: Kan man älska nån på avstånd? Ja, det skiljer många mil Mellan mig och den jag älskar Flera timmar med min bil Om du bara för nån timma Kunde komma hem till mig Och viska ljuvt de

orden: "Du, jag lämnar aldrig dig" När jag tänker på den kvällen När vi möttes, du och jag Hur du tog min hand och såg på mig Med din blick så jag blev svag Ja, då känner jag en längtan Att få krama dig så hårt Tänk vad enkelt det var innan Och nu är allt så svårt Kan man älska nån på avstånd? Ja, det skiljer många mil Mellan mig och den jag älskar Flera timmar med min bil Om du bara för nån timma Kunde komma hem till mig Och viska ljuvt de orden: "Du, jag lämnar aldrig dig" Jag kramar hårt min kudde Och tänker jämt på dig Var finns du ikväll, min älskling? Tänker du ibland på mig? Att få ha dig vid min sida Får jag bara drömma om För när jag vaknar varje morgon Är min säng som vanligt tom Kan man älska nån på avstånd? Ja, det skiljer många mil Mellan mig och den jag älskar Flera timmar med min bil Om du bara för nån timma Kunde komma hem till mig Och viska ljuvt de orden: "Du, jag lämnar aldrig dig" Och viska ljuvt de orden: "Du, jag lämnar aldrig dig"

Good morning my love, as you can see this time is becoming a habit. A time to relieve the pressure, a visit to the toilet. But of course I think of you the first thing I do. My love, you mean everything. Seeing and understanding your struggle against fatigue last night gives me so much and such great emotions, it shows how real you are in my life. A scammer cannot give so much, not be so energetic to share love with me, in the moment, in time and in the desire for the future. I have known for a long time how real you are and that you really love me. But there are so many who would like to force me to have a different belief and view. I'm not giving up my love! I want you here as soon as possible! Come into my arms! Have a good day. You know I'm by your side.

I feel good just now. Get something done. Meet people here, working with fiber-cable for internet. Take documentary photos. Talk and let knowing each other. Thinking on you. Wish you will be here soon. I do my day, I can say, as I know you are the reason I feel as good as I do. I am calm and take care of our feelings.

I don't know what I ever did without you. You bring such joy and happiness into my life every day. That's why I want you to know that you are truly special to me, and I will always love you more each day. If for whatever reason, we can't be together, all I want is for you to keep a smile on your face in life and know that there's someone who loves you. I'm so glad we met. Every day I fall more in love with you, and it all starts with a thought of you . Good evening honey, how are you doing great, hope that you're having an amazing evening over there?

Now I'm sitting here four hours after the injection! Of course, I wished I had felt what I feel now already 5 weeks ago when I expressed the desire to have the injection. What happens in the body in a few hours is completely inexplicable! I should be an object of care with conversations about how I experience these things, I should be a lecturer for doctors who have little experience with these things and especially for those who have patients who received B12 injections for some time. For those who have patients who have undergone an operation that affects the absorption of B12 and

other substances important for health. My thinking after the day!

I want you to know that our love is so strong. This distance cannot harm our love at all. I love you and I will always love you. You may be thousands of miles away from me, but my heart is always with you. You are everything that I need. I love you a lot. Distance may keep us apart and that's true, but know that I am always here for you. You are always in my heart and I take you with me wherever I go. Good morning, I wish you a very nice and lovely day today, may your day be blessed. Good morning

When I of mood and menthel lose it I have hard to fix that I will do! When you are with me and can see that, I am sure that you can give me right support. But best is if I have a good confidence.

Can you love someone from a distance? Yes, it's many miles apart Between me and the one I love Several hours with my car If you only spend an hour Could come to my house And sweetly whisper those words: "You, I'll Never Leave You" When I think of that night When we met, you and me How you took my hand and looked at me With your look so I became weak Yes, then I feel a longing To hug you so tightly Think how easy it was before And now everything is so difficult Can you love someone from a distance? Yes, it's many miles apart Between me and the one I love Several hours with my car If you only spend an hour Could come to my house And sweetly whisper those words: "You, I'll Never Leave You" I hug my pillow tightly And thinking about you all the time Where are you tonight my love? Do you sometimes think about me? To

have you by my side Can I just dream about Because when I wake up every morning
Is my bed empty as usual Can you love someone from a distance? Yes, it's many
miles apart Between me and the one I love Several hours with my car If you only
spend an hour Could come to my house And sweetly whisper those words: "You, I'll
Never Leave You" And sweetly whisper those words: "You, I'll Never Leave You"

Maybe we need to wait some time to make that we meet. My talk to Lena was not good. She tell me that she need to talking to you by loud, video or type whatsapp. I try to tell that you of security can't do that. I have a chans to make it in an diffrent way. But not sure, and just too make it if I can be 100% it will work! In that moment I am sure, I will tell you. Give give me full responsibility for it. As soon as I can say yes or no, I will. There is an order for \$2,500 on Binance. I need to put in a fee of \$40, but I don't have it and neither were Bengt and Lena prepared to help me/us. People around them are so deceived they can't believe the possibility. Everyone is freaking out today, I don't know where this world is going. I KNOW YOU LOVE ME AND WANT TO BE MY WIFE! Maybe need to wait untill pension come 19 September.

Hope you understand me. Honey please if you have the money, you send it to me okay? I will know how to go about it, I want it

Good morning love! We may be thousands of miles apart but I always wake up with you on my mind. Good morning my love! No distance can separate us or take away

the love that I have for you!  Good morning! Sending smiles across the miles to my person. I may not be there with you, but I will always be there for you. Love you. As I fell asleep last night I was thinking about how good we are together. I think we make a pretty good team. Miss you and love you. I just wanted to let you know that I

love you no matter how far you are.

You were up early, I was tired today, so take care of my Sunday, and no clock bell for me. The sun is shining, looks like it will be a good day. Maybe out in the woods to pick some mushrooms, Trattkantareller, (funnel chanterelles) is coming, is very good to have in omelets. Get me to think that I need some breakfast. Miss you. Love you,

and miss you. I am here for you!
